SENSATIONAL NEW EXPERIENCES. FROM THE INVENTORS OF IMAX®

For those of you who are looking for sensational new experiences, here's an invitation to EXPO '90 in Osaka, Japan, open from April 1 - September 30, 1990. Together with our dedicated sponsors, Imax Systems Corporation will unveil:

Advanced IMAX® 3D, with a film which makes a powerful statement about the need for wildlife and wilderness.

IMAX MAGIC CARPET® , the life cycle of the monarch butterfly, on two giant screens, one in front and the other visible beneath a transparent floor.

IMAX SOLIDO™, with the answer to "what makes movement" illustrated by dazzling supercomputer graphics and live action, on the prototype for a new patent-pending, proprietary wraparound full colour 3D system.

Not to mention IMAX®, the experience which has had them lining up for 20 years.

BANFF SCREENWRITERS' WORKSHOP

May 13 - June 1, 1991

Five Canadian screenwriters are invited to bring their completed, but as yet unproduced, screenplays for an intensive three-week workshop.

The common denominator of the screenplays will be that, firstly, the script needs revision and, secondly, that the screenwriter is aware of this need for revision. The five screenplays will be discussed in individual and group sessions with the program head, Charles Israel.

The five revised scripts will then be presented to a producer and director who will participate in workshopping the scripts; the writers will have the opportunity to question any of the producer's decisions, an infrequent occurrence in real life.

CITATION

Comfort Seating for All your patrons

Today, more than ever, your patrons expect comfort! And, while this is a prime concern, durability, good looks and easy maintenance are a must as well!

The Irwin Citation is the dependable, long-lasting solution to upholstered theatre seating.

Irwin's Citation is rigorously tested during carefully designed heavy-weight torture tests!

No, not the Hippo!

Over 100,000 trial 'seatings', we drop 40 lb. sandbags into the middle of the seat and swing them into the back (on both sides)! Seat cushions are then flipped up and down 20 times a minute over 100,000 cycles. And they still look good!

When was the last time you sat in your theatre seats? While we can't control whether your patrons will like the show, we can guarantee they'll watch it in comfort!

Film Classification

(a) General — These motion pictures are considered acceptable for all age groups. Occasional violence, swearing and coarse language and the most innocent of sexually suggestive scenes and nudity are permitted in this category, though when these motion pictures contain any of this material, a warning may be required with an advertisement of the motion picture.

(b) Mature — This category is intended to convey to parents that the subject matter of a motion picture or the way in which it is portrayed may be inappropriate for some young people. There is no age restriction, but a warning may be required in all advertising material. In these motion pictures, the coarse language may occur more often. The sexually suggestive scenes are less subtle and the degree of nudity permitted is greater than that which is permitted in the General category. Violence may be portrayed with a greater degree of reality as well.

(c) 14 years — This category restricts, due to the content, admission to these motion pictures to persons aged 14 or older. Children under the age of 14 are permitted to attend if accompanied by a parent or other responsible adult who is prepared to sign a consent form. Again, as with the other categories, appropriate warnings may be required to accompany advertisements of these motion pictures.

(d) Restricted — These motion pictures contain some or all of the following

(i) sexually suggestive scenes;

(ii) frequent use of coarse language and swearing;

(iii) violence that is depicted with a degree of reality and explicitness that makes it look real. Persons under the age of 18 are not permitted to attend motion pictures classified within this category unless accompanied by a parent or responsible adult.

(e) Restricted designated — Due to the presence and number of explicit sexual scenes and sexually suggestive scenes or to the manner in which other scenes described in the restricted category are depicted, or to both, these restricted motion pictures are not permitted to be shown at a theatre unless the theatre has been designated for the purpose of the exhibition of the motion picture that is classified into this category. As well, persons under age 18 are not permitted to attend under any circumstances.

ONTARIO

Ontario Film Review Board
Ministry of Consumer & Commercial Relations
1075 Millwood Rd.
Toronto, Ont. M4G 1X6
(416) 421-2462
Minister: Hon. Greg Sorbara
Chairperson: Robert Payne
Director, Entertainment Standards: John Chalmers

Film Classification

The Theatres Act gives the Ontario Film Review Board the responsibility of reviewing all films publicly exhibited or distributed in the Province of Ontario and to assign a classification it feels reflects the content. To do this, the Board uses guidelines which in their opinion accurately reflect the level of tolerance indicated by the community standards of the Ontario public. These guidelines are under continual reassessment and review.

The Board classifies film into four categories: Family — Films suitable for all viewing. Parental Guidance — Parents are advised that theme or content may be more mature than Family films. However, children are permitted unsupervised access and the decision of film suitability lies entirely with the parents. Films in this category may contain limited violence, such as hand-to-hand fighting, the use of weapons without excessive bloodletting, restrained portrayal of accident or disaster. They may also contain scenes involving very brief or casual nudity, romantic involvement which is not sexually explicit, mild use of coarse language. Adult Accompaniment — Restricted to 14 and over unless accompanied by an adult. (Suitable for 14 and over.) Films in this category may contain limited nudity and sexual involvement. There may also be sexual innuendo, suggestive or vulgar dialogue, coarse or offensive language. There may be a higher degree of violence including bloodletting. Violence and nudity will not be gratuitous, but should be integral to the plot. Restricted — Admittance limited to those of 18 years and over. Films in this category may contain scenes of heavy violence, torture, or abuse, extremely graphic depiction of accident or horror, full nudity, sexual activity or offensive language. Eliminations — Each film is judged on its own merit. The Board may prohibit or require eliminations in a film based on the criteria set out in the regulations to the Theatres Act.

The Local Government Act, Chapter 216 of the Revised Statutes of Newfoundland 1970 which provided for a tax on places of entertainment was revoked on April 1, 1980 and the Municipal Act which supercedes this Act does not provide the authority for an entertainment tax by municipal governments.
Under the City of St. John's Act, Section 284, an entertainment tax may be levied and a 20

per cent tax is presently levied on movie theatres.

Where the admission charge is not shown on the admission ticket or where tickets are not issued, a notice that clearly outlines the tax must be posted. Vendors must record the admission charges collected and the tax remitted. In places of entertainment, the owner is responsible for the collection of admission charges. Some admission charges are exempt from the Act. For further enquiries, please consult the Revenue Division as above.

WHY KILL YOURSELF

"Keeping Track" Les Productions Télescène

WHEN YOU COULD SHOOT HERE.

We're going to make it easy for you. Shoot your film in Montréal and work with a crew that can light any scene, build any set, find the perfect prop, and not make a big production out of it. Shoot your film in Montréal for locations that look like a page out of Paris or a romp through New York. Shoot your film in Montréal because it's a wonderful place to be while you're on location. Don't kill yourself in some other city. Shoot in Montréal and live to enjoy it.

ACCESS Network (The Alberta Educational Communications Corporation) was established in 1973 to provide multi-media, educational communications services for Albertans. Among those services, ACCESS Network television annually produces, acquires and distributes about 4900 hours of educational, cultural and informational television programming. Placing emphasis on the concept of distance education, the network broadcasts via ANIK C-1 satellite, reaching about 72% of the population, who have access to the programming via cable or satellite receiving equipment. Programming for adults and children at home focuses on informal learning needs and interest — historical dramas, documentaries, how-to programs, the arts, music, family viewing, science, technology, the natural world, and non-institutional courses. More importantly, the Corporation provides curriculum-based programming and print support material for school and institutional use. In addition to its highly-skilled staff, the Corporation depends on the services of freelance writers, actors, technicians and performers, making it the largest employer of freelance talent in Alberta.

TVOntario is a non-commercial, educational broadcaster which operates two networks: the predominantly English-language TVO network and the predominantly French-language la chaine française de TVOntario. Both offer curriculum-based programming for schools, and educational programming for viewing at home by all ages.
Increasingly, TVOntario has looked to co-producers in both the public and private sectors, in Canada and abroad, to help achieve its programming goals. TVOntario will celebrate its twentieth anniversary in 1990.

The Canada Council is an independent agency created by the Parliament of Canada in 1957 to foster and promote the the arts. The Council provides financial assistance to film artists under various programs. The Media Arts Section and the Arts Awards Service are for artists with professional status, while the Explorations Program offers support to artists who are attempting their first work in a given field.

Programs

Media Arts Section
The Media Arts Section of the Canada Council provides support for the direct, creative use of conventional and new technologies and related media by independent, professional artists. The section administers three major programs: film and holography, video and audio, and computer-integrated media (computer processing or imaging (visual and acoustic) or system control, computer telecommunications, laser techniques, videodisc and optical storage media). The Media Arts Section funds non-profit organizations for the production, presentation and distribution of non-commercial media arts works. Also, it offers support to individual artists for the production of specific projects in film, video, holography, audio, and computer-integrated media.

Film Production Grants
The Media Arts Section offers Film Production Grants to independent filmmakers who have directed at least one film or professional artists who have produced a body of work in video. Grants are worth a maximum of $50,000 to cover direct costs of a film production. The grants are intended to support experimentation with form, content or technical process within a wide range of genres: experimental, documentary, dramatic, personal narrative, animation, computer animation, and so on. The Council requires that filmmakers have total editorial control over the proposed production. Therefore, films being produced, co-produced or sponsored by another federal or provincial government agency are not eligible. Instructional projects, pilots for commercial or educational television and industrial film projects are also ineligible. In the case of dramatic feature-length films, eligibility is limited to low budget works which are of an innovative or experimental nature and whose other funding sources do not compromise the filmmaker's artistic control over the project.

Arts Awards Service
The Arts Awards Service administers the Grants to Artists Program that provides various grants to artists who have completed basic training and who are recognized as professionals. The program in film is designed to provide financial assistance to independent, professional filmmakers and experimental filmmakers, whose work shows an original and innovative approach, in order that they may be free to pursue projects in film. Grants may support individual creative work in the following areas: research and scriptwriting; professional development of scriptwriters, film directors, camerapersons and sound specialists; writing of dramatic scripts; creation of original works and adaptation of literary or dramatic works for the screen; research and development projects related to experimental film.

Explorations Program
Explorations is a multifaceted and wide-reaching program that helps new artists and encourages fresh ideas. Grants are offered on a competitive basis to individuals, groups and non-profit organizations for innovative projects in any artistic discipline or combination of disciplines which may introduce new approaches to creative expression or fulfil specific needs in the development of the arts. Explorations considers proposals for the research, development and/or production of a first professional film, video, audio, multimedia or other electronic media work. In addition, it may offer support for the research and writing of a first script.

The National Film Board of Canada was founded by an Act of Parliament on May 2, 1939, to initiate and promote the production and distribution of films in the national interest, with the primary object of interpreting Canada to Canadians and to other nations. The NFB is headed by the Government Film Commissioner and Chair of the Board, who is responsible to the Minister of Communications. The Film Commissioner advises the Minister on national film policy. A Board of Trustees, composed of nine members - four from the public service and five prominent citizens representing the five major geographical regions of the country - reviews and approves the general policies at the NFB.
The NFB's official head office is in Ottawa. The operational headquarters are located in the Montréal suburb of Saint-Laurent, where the following programs are centered: English Program; French Program; Services Division; Corporate Affairs; Finance, Administration and Personnel; Communications; Employment Equity Program and Planning and Evaluation.
The NFB has twelve audio-visual centres in the following Canadian cities: Vancouver, Edmonton, Winnipeg, Saskatoon, Toronto, Ottawa, Montréal, Québec, Halifax, Moncton, St. John's, and Charlottetown. Six of these centres - apart from Montréal, its headquarters - include production as well as marketing and distribution facilities: Vancouver, Edmonton, Winnipeg, Toronto, Halifax and Moncton.
The NFB also has offices in New York, London and Paris. These offices arrange the commercial distribution of NFB titles with private distributors, in addition to the direct sales of prints and videos. The international program operates both commercially and non-commercially. The non-commercial distribution of film is achieved in co-operation with the Department of External Affairs and diplomatic and trade posts around the world.

Telefilm Canada
Telefilm Canada is a Crown Corporation with a mandate to develop Canada's film, television and video industry. Through Telefilm Canada, the Government of Canada provides support, as a partner, to the private sector for the production of film and broadcast material, either in the form of investment funds or through a variety of resources at Telefilm's disposal. Telefilm Canada meets the diverse needs of this booming industry through a wide range of funds, participating in this way in some three hundred projects each year. Support is available at all stages of the process, from screenplay development to final production and beyond to the distribution and marketing of the finished product in Canada and abroad. Telefilm Canada's goal is to strengthen the competitive position of Canadian films, televison programs and videos, as well as raising the export profile of Canadian companies, and to assist them in developing marketing and promotion strategies. The Corporation also coordinates Canada's participation in international festivals and administers a program of grants to Canadian festivals. Telefilm Canada is responsible for managing the co-production agreements for film or television programs signed by Canada with foreign countries: Algeria, Argentina, Belgium, China, Czechoslovakia, the Federal Republic of Germany, France, Hungary, Ireland, Israel, Italy, Morocco, the Netherlands, New Zealand, Spain, the Soviet Union, Switzerland, the United Kingdom and Yugoslavia. Among other provisions, the agreements stipulate that a co-production is treated exactly like a domestic production in each of the partner countries. Telefilm Canada is a Crown corporation that reports to Parliament through the Minister of Communications. Its head office is in Montréal and it has offices in Toronto, Vancouver, Halifax, Los Angeles, Paris and London.

The Association was incorporated as a non-profit body in the fall of 1973. At that time it was a small group of Alberta producers who were the active members, plus various Associate members. In its seventeenth year, the Association has grown to include active members, corporate affiliates (suppliers, educational institutes, crown corporations, etc.) and associates (individuals who may not be engaged full time in motion pictures but who have a special interest in the industry, or individuals who are employees of active member companies and who wish to be personally affiliated with the Association). The total membership involves more than 500 people in the Association's activities. A monthly newsletter, in English, goes to members, associates, and the general public. Seminars and workshops are held several times a year, and the Association sponsors an annual film festival.

We shoot, edit, gaff and grip, build sets, paint sets, record sound, create effects, art direct, transport, publicize, coordinate, take stills, handle the books, continuity and playback.

We also bend over backwards.

You name it, we do it. ACFC is an independent union. So you'll be dealing with some very flexible people. Not a lot of rigid rules.

We're the only ones in the business with a tiered rate system. Which means you can save 15% on productions of 1 million and under, 10% on productions 2.5 million and under. And 5% on those under 4 million. (For American producers that's even better than the 80 cent dollar.)

And besides money, we'll save you time and headaches. Believe it or not, you can sign up any of our 730 craftspeople by signing just one contract.

So, give us a call. We'll go through all kinds of acrobatics to help you.

CANADIAN PICTURE PIONEERS
21 Dundas Sq., Ste. 1210
Toronto, Ont. M5B 1B7
(416) 368-1139

The Canadian Picture Pioneers was formed in 1940 as an organization dedicated to the welfare of all men and women of the motion picture industry. It has grown to its present-day strength of over 900 members in six branches across the country.
Original membership requirements called for 25 years of service in the industry. This period of service has now been reduced to 15 years. Anyone qualifies for membership - doorman, cashier, caretaker, manager, projectionist, booker, etc. Its Trust Fund helps members of the film industry by, for example, frequently paying additional costs not covered by a health insurance plan, providing for wheelchairs and for special treatments.

Aims & Objectives
To create and promote friendly relations amongst those who have been or are engaged in or connected with the motion picture industry.
To create and promote friendly relations and understanding between the public and those engaged in or connected with the motion picture industry.
To aid those in need who were formerly in and part of the motion picture industry without requiring repayment of any kind from the recipient.

Pioneer of the Year Award
In 1952 the Canadian Picture Pioneers marked the Golden Anniversary of the Silver Screen in Canada, dating it from the establishment of the first successful motion picture theatre – the Electric of John Schulberg on Cordova Street, Vancouver, which he opened in the fall of 1902. At the celebration banquet, held in the Royal York Hotel, Toronto, Schulberg, Jule Allen of Toronto, George Ganetakos of Montréal, A. J. Mason of Springhill, Nova Scotia, Léo- Ernest Ouimet of Montréal and Fred G. Spencer of Saint John, New Brunswick, were honored as pre-1910 pioneers who had done the most to

The Canadian Centre for Advanced Film Studies, at Windfields, was founded in 1986 by Norman Jewison. The centre is a national institution dedicated to serving the talents of filmmakers who have demonstrated the skill and commitment to advance the art of feature filmmaking in Canada. The focus of the centre's Resident Programme is dramatic feature filmmaking with particular emphasis on motion picture storytelling through screenplay and performance. The centre does not have a fixed curriculum nor a

permanent faculty; rather the programme is one of process and experience in which the residents develop, enhance, and prepare screenplay material for production, and then, in most cases, actually produce it. The residents participate in workshops, work with script coaches and acting teachers, and meet with screenwriters, producers and directors from around the world. They script, prepare and shoot several short dramatic films each over the course of the year. In addition, each resident develops his/her own feature film project. The 1990 Resident Programme begins April 2 and ends December 14, 1990. Applications for the 1991 Resident Programme are available by calling or writing to Lois Boyd at the centre. The deadline for submissions is June 1, 1990.

THE CANADIAN FILM AWARDS

Compiled (with permission) from "A Pictorial History of The Canadian Film Awards" by Maria Topolavich (Stoddart 1984. A co-publication with The Academy of Canadian Cinema)

In May 1947, at a national conference of forty-four organizations affiliated with the Canadian Association for Adult Education, it was decided that the time had come for awards to distinguished Canadian film and radio programs. These awards were to realize three main objectives: recognizing significant Canadian creative effort, helping Canadians to understand the work of Canadian creative artists, and raising the standards of film and radio programs.
A fifteen-member National Advisory Board was formed from representatives in a variety of disciplines and institutions across the country, and the Board appointed an executive committee to oversee day-to-day management. Two technical committees (film and radio) were selected to work on competition categories, procedures, criteria for selection, nomination of judges, and many other all-important matters, including a name for the award, and its financing.
On April 27, 1949, the first Canadian Film Awards were presented at the Little Elgin Theatre in Ottawa, hosted by the Hon. Robert Winter, Minister of Reconstruction and Supply. The Canadian Film Awards had a long run - twenty-nine years from 1949 to 1978. They were superseded by The Academy of Canadian Cinema Genie Awards, starting in 1980.

The Academy of Motion Picture Arts and Sciences is an honorary organization composed of more than 5,000 motion picture craftsmen and artists. Since its founding in 1927, the organization's stature has grown internationally until today the Academy provides unparalleled incentive for higher levels of technical and professional achievement among all branches of filmmaking and has become the cinema's most effective single ambassador.
It is widely recognized that the motion picture is one of our most important sources of information, education and entertainment. This, and the constantly rising artistic merit of films produced throughout the world, are due, in part, to the Academy.
The Academy is a non-profit organization whose field of activity does not include economic, labor or political matters.

Purposes

The purposes of the Academy are to advance the arts and sciences of motion pictures; foster co-operation among creative leaders of cultural, educational and technological progress; recognize outstanding achievements; co-operate on technical research and improvement of methods and equipment; provide a common forum and meeting ground for various branches and crafts; represent the viewpoint of the actual creators of the motion picture and foster educational activities between the public and the film industry.

History

The Academy was organized in May 1927 as a non-profit corporation, chartered under the laws of California. Its 36 charter members included production executives and film luminaries of the time.
The Academy moved into its present quarters in Beverly Hills in 1975. The seven-storey building includes the Samuel Goldwyn Theatre, Margaret Herrick Library, Administrative and Publications offices.

The Association of Canadian Film Craftspeople was formed in August 1978.

Aims & Objectives
1. To establish a Canadian-based union of film technicians.
2. To let our members continue to operate as freelance technicians within a flexible structure and at the same time ensure fair rates and conditions of work.
3. To allow producers more latitude in their choice of personnel by working with any Canadian technician regardless of union affiliation.
4. To provide a place where talented newcomers can be trained and experienced professionals can expand their skills.
5. To seek agreements and understandings with like-minded organizations when such agreements would be in the best interest of our members and the industry as a whole.
6. To take an active role as a member of the Federation of Canadian Guilds and Unions in Film and Television in the planning and making of policy decisions which affect the day to day problems as well as the future of the industry.

Board of Directors: Charles Falzon, David Perlmutter, Neil Court, Gwen Iveson, Dan Johnson, Robert Lantos, Micheline Charest, Annabel Slaight, John Delmage, Barbara Allinson
Executive Vice-President: Peter Mortimer
Executive Director: Mireille Watson
Affiliated with Association des Producteurs de Films et de Vidéo du Québec (APFVQ).
The ACFTP was formed to speak for and serve the interests of Canadian film and television producers. Together with the Association des Producteurs de Films et de Vidéo du Québec, it now represents the majority of active, on-going, entrepreneurial Canadian production companies.
Its members are the companies which develop the projects, find the financing, negotiate with exhibitors, distributors and broadcasters and create the jobs by taking the risks inherent in producing programming.
Because its constituency is limited to the entrepreneurial producer, it can respond swiftly and without qualification to those issues that affect its operations and its very livelihood.
It acts as a clearing house for matters of concern to members and keeps members informed of policy, legislation and events that affect them. It is dedicated to raising the profile of the production industry in Canada and abroad. It ran a very successful conference for investment industry professionals and several other seminars are planned.
It has a permanent secretariat in Toronto and enjoys reciprocal facilities with the APFVQ in Montréal and formal links are being established with producers' associations around the world.

Membership

An Applicant must be an established Canadian business entity with permanent staff and/or office and must have produced feature films or mass audience television programs on a regular basis for the two-year period preceding application. Further, the Applicant must be entrepreneurial in nature as opposed to being employed for hire by other producers.
There is also a separate class of membership for those companies of like interests who do not necessarily qualify for full membership, such as financiers, packagers or companies in production for less than two years.
Full membership fees:
Annual dues $600.00
Associate membership fees:
Annual dues $1,000.00

Ses buts sont de représenter les maisons membres auprès des organismes d'Etat, d'encourager une coopération étroite entre tous ceux qui font partie de l'industrie cinématographique et de faire tous les efforts afin de corriger tout abus qui pourrait survenir dans l'industrie cinématographique.
Ses membres, de par leur situation géographique et culturelle et leur capacité de produire en anglais et en français, comptent parmi les plus prestigieux intervenants du milieu cinématographique canadien et un grand nombre d'entre eux sont reconnus internationalement pour la qualité de leur production.

The Canadian Film & Television Association (CFTA) was founded in 1948. CFTA has in excess of two hundred and fifty corporate members including production companies, commercial houses, animation studios, audio-visual specialists, laboratories, optical houses, videotape and sound recording studios, post-production facilities, distributors and suppliers to the industry.
CFTA represents over seventy-five per cent of Canada's independent film, tape and slide production industry, in annual sales volume and numbers employed.
CFTA members supply their production and services to film and television broadcasting outlets in Canada and internationally, to advertising agencies, to private corporations and to government agencies. The Association is the representative voice of the private sector of this industry in Canada.
CFTA maintains a close working relationship with the regional industry associations including the Alberta Motion Picture Industries Association (AMPIA), Association des Producteurs de Films et

de Vidéo du Québec (APFVQ), British Columbia Motion Picture Association (BCMPA), Manitoba Film Producers Association (MFPA), Saskatchewan Motion Picture Industry Association (SMPIA), Atlantic Independent Film and Video Association, and incorporates the memberships of the Canadian Association of Motion Picture Producers (CAMPP) and the Canadian Television Program Distributors Association (CTPDA).

RAVE REVIEWS IN TORONTO

Producers are tough critics, but they recognize a winner when they see one. They give Toronto Film Liaison rave reviews because they know we provide a comprehensive service that is fast, efficient, and free. Toronto Film Liaison knows that making movies is your job — and making it easy is ours.

We provide free location permits. We arrange for police assistance, City equipment and City property. We obtain public agency approvals. And we also liaise with other levels of government and the private sector for locations, goods, and services.

It's no wonder we're the critics' choice. For more information, contact:

After 100 years of making motion picture film, Eastman Kodak Company ushers in a new era of creative freedom.

Introducing the family of Eastman EXR extended-range colour negative motion picture films.

Films that offer exceptionally wide exposure latitudes and increased range of speeds.

Films that offer you freedom to shoot in bright or dim lighting conditions. From daylight to tungsten, HMI, or even fluorescent illumination.

Films that are not only more light sensitive, but provide better colour, sharpness, and finer grain.

Films, in short, that extend the vision of every cinematographer and director. Opening new doors. Creating new possibilities.

Because at Eastman we believe your imagination should know no bounds.

Now being introduced:
